

Get Started With Your Small Steps Activity Guide

Take one small step at a time

Think of each small step as a stepping stone. Each one leading to the next, on your way to a place of better health—for you and your heart. Yes, of course, there may be the occasional stumble. But we're here to help you every step of the way.

STEP #1: PAST SUCCESSES

Look back at your past success stories. Then create some new ones.

As you aim to take steps toward healthier living for you and your heart, think back on other successes from your life. Write down a few of them here.

Revisit this list anytime and you'll see one thing for sure: **You can do it.**

What is LEQVIO?

LEQVIO (inclisiran) is an injectable prescription medicine used along with diet and other cholesterol-lowering medicines in adults with high blood cholesterol levels called primary hyperlipidemia (including a type of high cholesterol called heterozygous familial hypercholesterolemia [HeFH]) to reduce low-density lipoprotein (LDL-C) or "bad" cholesterol.

STEP #2: FUTURE GOALS

Map out your journey to a healthier lifestyle. Start here.

What's your long-term health goal? The big picture, if you like. And what are the day-to-day steps you'll take—with your doctor's advice—to help get you there? When it comes to making a plan you can stick to, putting it in writing can really make a difference.

STEP #3: EASY ACTIONS

Everyday activities burn calories, too.

Not big on exercise? What are some of the ways you might naturally incorporate 30 minutes of physical activity into your weekly routine?

Walking

Gardening

Housework

Yard work

Write down some other everyday exercises you might be doing.

HERE ARE A FEW TIPS:

Start slow and build up from there.

Start with a 5- or 10-minute walk a day

Bring a friend.

It's hard to get bored or tired when you have company

Do something you enjoy.

Dance, walk the dog, or swim

Don't let a setback stop you.

Tomorrow's a new day
